RING SIZE GUIDE

Before measuring your ring, please make sure that this guide is printed in A4 size and at 100% scale. You can check the accuracy of your printout by placing a credit card on the line below or by checking if the example below measures exactly two centimeters.

Option 1: Measure with your ring

Measure the inner diameter of your ring and identify your size. The inscribed numbering corresponds to the inner diameter in millimeters / mm /, and the described numbering corresponds to the ring sizes in Bulgaria. To be sure you have taken the exact measurement, you can verify the result by measuring the inner side of the ring with a ruler.

Option 2: Measuring with tape

Using a ribbon, wrap it around the base of your finger. To ensure the ring fits comfortably, we suggest measuring the knuckle of your finger as well. We recommend choosing a size that slides over your finger. With a pen, mark the point on the tape where the ends meet. Measure the length of the tape in millimeters with a ruler. Choose the closest size from the international ring size conversion table to determine your ring size.

Circumference in MM	Inner Diameter in MM	RING SIZE				
		Bulgaria	Europe	USA	United Kingdom and Australia	Japan
44	14.1	44	44	3	F 1/2	4
45	14.3	45	45	3 1/4	G	5
46	14.7	46	46	3 3/4	H	6
47	14.9	47	47	4	H 1/2	7
48	15.3	48	48	4 1/2	I 1/2	8
49	15.5	49	49	4 3/4	J 1/2	9
50	15.9	50	50	5 1/4	K	10
51	16.3	51	51	5 3/4	L	11
52	16.5	52	52	6	L 1/2	12
53	16.9	53	53	6 1/4	M 1/2	13
54	17.3	54	54	6 3/4	N 1/2	14

BRACELET SIZE GUIDE

With a tape measure, wrap your wrist without tightening too much, and record the measurement. Add another two centimeters to your wrist measurement. For example: Your wrist size is 16 cm. The ideal size will be 18 cm.
